

WILL RUDD DAVIDSON

Company Newsletter

Editor's Comments

Hello all. I hope you've had a good summer. We have had the summer of 69 here at Will Rudd... but no, we've not gone back in time! On the contrary we are moving forward, and have recruited in key areas across Glasgow and Edinburgh. We currently have 69 energetic and skilled staff, committed to delivering for our Clients.

Our Annual Team Building Trip to Crieff Hydro was the perfect opportunity to get everyone together and introduce our new team members.

We have recently seen the **Courtyard Phase** of the **Roxburghe Hotel** handed over, and we are proud of our structural input to the glass roof, and also some sensitive interventions to the fabric of the Georgian Block. We love our **Conservation Engineering** !

Saltcoats Town Hall

On the theme of Conservation, this year, we are delighted to have been involved with the conservation and redevelopment of **Saltcoats Town Hall**, which has already attracted Industry Awards....

- **Winner – Scottish Awards for Quality in Planning (Place Category)**
- **Nominated – Glasgow Institute of Architects (GIA) Awards (Conservation Category)**

Our Director MJ O'Shaughnessy & First Minister Nicola Sturgeon at the Saltcoats Town Hall Opening

Social Bite Nest House Reveal, St Andrews Square

Social Bite Housing

We are also currently involved in the exciting new Social Bite housing initiative where it is planned to locate housing 'pods' on a site in Granton where each property will accommodate two homeless people. We are providing Civil & Structural Engineering Services for this project on a pro-bono basis. Championed by some recognisable faces such as none-other than **Leonardo DiCaprio** and **George Clooney**!

It is an honour for us to be a part of this project, which will help benefit the lives of many. For more information on this project, please visit <http://social-bite.co.uk/>

New Hotel, Market Street, Edinburgh

It is pleasing to see our ongoing project, emerging out of the ground following complex stages of temporary works and groundworks.

The contractor has been featured in construction news highlighting the engineering challenges in building this constrained UNESCO World Heritage site.

Market Street Hotel Development
